

ASSEMBLY INSTRUCTIONS

RUT AND SMALL PARTS STORAGE SHELVING

Rolled Upright Type Shelving

YOU'LL NEED

PH

10MM

ASSEMBLE THE SHELVING

Supplied per Single Sided – Full Bay:

1 x Back Starter
1 x Kick Panel
2 x Side Panel
1 x Roof (Shelf)
22 x Nuts and Bolts
Amount of Shelf Levels ordered
4 x Shelf Clips per Shelf Level

Supplied per Single Sided – Add On Bay:

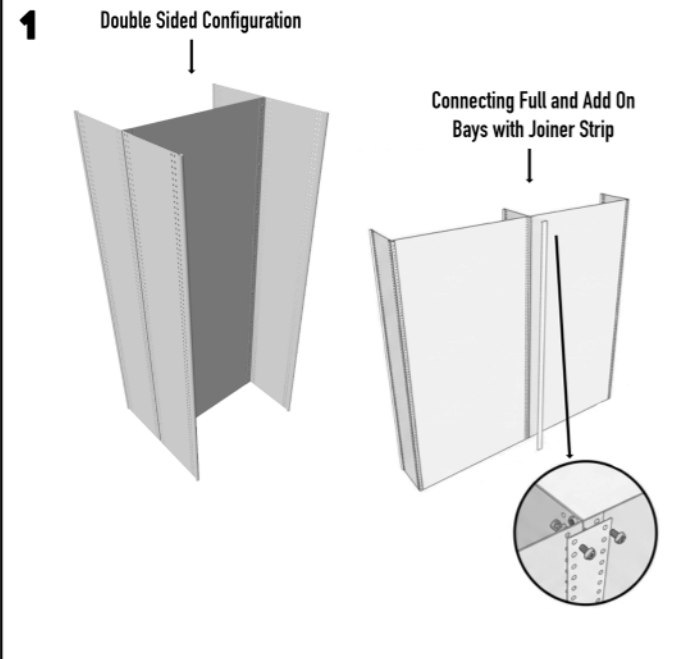

1 x Back Starter
1 x Kick Panel
1 x Side Panel
1 x Roof (Shelf)
1 x Joiner Strip
18 x Nuts and Bolts
Amount of Shelf Levels ordered
4 x Shelf Clips per Shelf Level

Supplied per Double Sided – Full Bay:

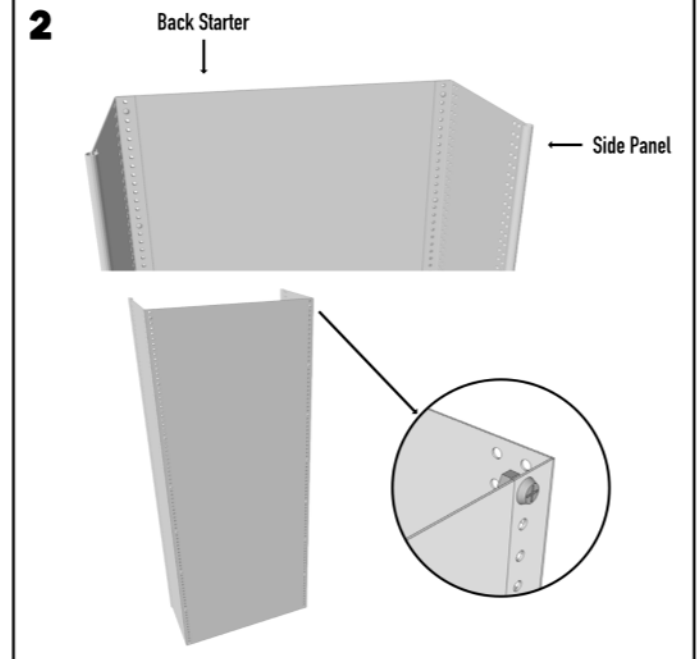

1 x Back Starter
2 x Kick Panel
4 x Side Panel
2 x Roof (Shelf)
30 x Nuts and Bolts
2 x Amount of Shelf Levels ordered
4 x Shelf Clips per Shelf Level

Supplied per Double Sided – Add On Bay:

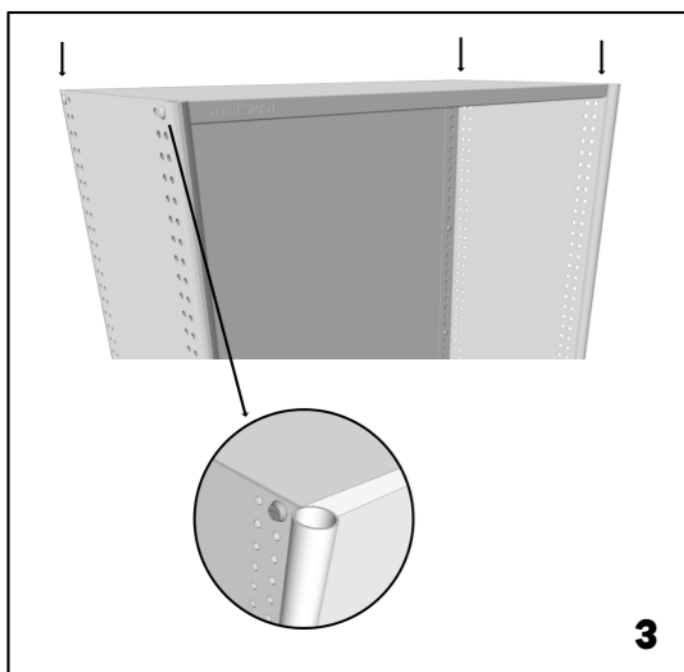

1 x Back Starter
2 x Kick Panel
2 x Side Panel
2 x Roof (Shelf)
1 x Joiner Strip
26 x Nuts and Bolts
2 x Amount of Shelf Levels ordered
4 x Shelf Clips per Shelf Level

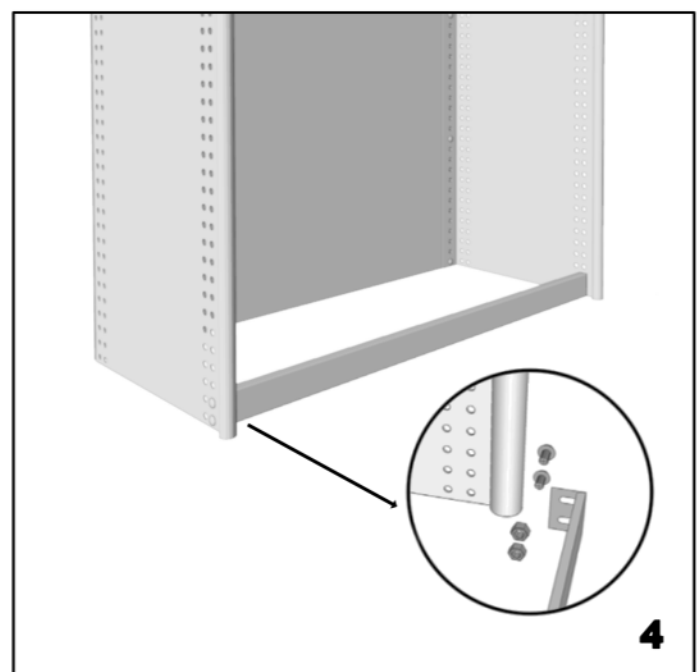

1. Before beginning please note, if you have a Double Sided Bay they share a Back Panel and needs to be secured upright. If you are joining Full and Add On bays the Joiner Strip must be fixed simultaneously.

2. Lay a Back Starter flat on the ground and fix the Side Panel's return to the Back Panel with 7 x bolts and nuts, equally spaced, for each Side Panel.

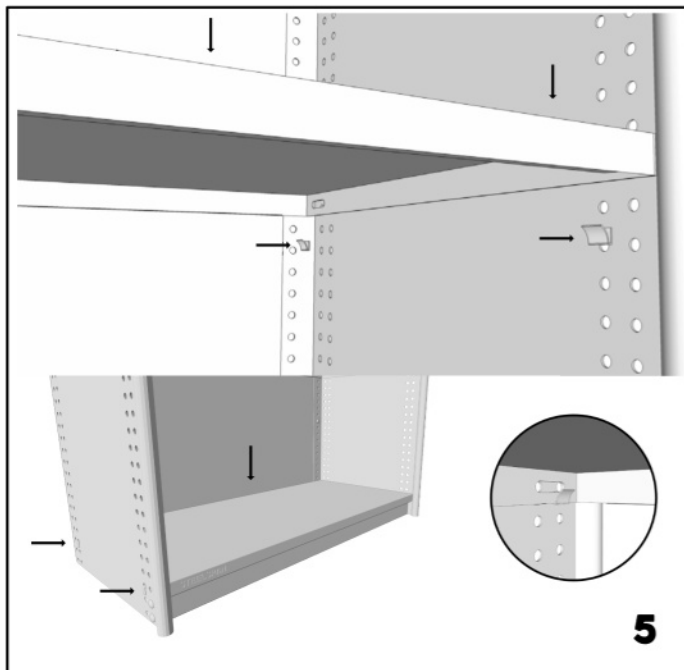

3. Secure the Roof panel, which is the same as the other Shelf Levels, with 2 x bolts and nuts on either side.

4. Secure the Kick Plate with two Bolts and Nuts on either side.

ASSEMBLE THE SHELVING

5. Starting with the floor Shelf Level, fix four Shelf Clips in each corner as shown before securing the Shelf Level into them. Proceed to fit other Shelf Levels as needed. If you have Small Parts Storage Trays, place them on the shelves as required.

ENJOY YOUR NEW STORAGE SYSTEM!
